

ePN Solutions

Changing Your Point of View

Over 10 years supporting only Resellers and their Merchants — proven integrity with ZERO Direct Sales and NEVER any Merchant Processing sales! We stand by our word as your PARTNER, NOT as a competitor!

ePNJPOS

JAVA POINT-OF-SALE

ePNJPOS – For laptops and computers - enables merchants to securely process payment transactions, including Card Swipe, PIN Debit, Manually Keyed, Signature Capture, AND Gift/Loyalty. A simplified interface which reports by licensed copies and clerk IDs, and allows printing to any Windows-driven printer. Merchants can block browser access to prevent internet surfing by employees. Utilize multiple copies on one ePN account and still have localized reporting. With a gateway account, only a one-time License Fee is required, NO ADDITIONAL MONTHLY or ANNUAL fees apply. ePNJPOS is PABP certified with ALL processing and data storage done through ePN's PCI-compliant Gateway.

ePNPlugIn

A certified Plug In for QuickBooks™, allows your merchants to run completely from within QuickBooks™ Pro, Premier and Enterprise, generating invoices/sales receipts, processing card and check payments, Card-On-File transactions, and email receipts. If your merchant prefers, they can seamlessly integrate all transactions processed through ePN's PCI-compliant Gateway, including web sites, POS Devices, wireless, encrypted store and forward, and ePNJPOS. With a gateway account, only a one-time License Fee is required, NO ADDITIONAL MONTHLY or ANNUAL fees apply. ePNPlugIn is PABP certified with ALL processing and data storage done through ePN's PCI-compliant Gateway.

ePNOFG

ORDER FORM GENERATOR

Product/Service Sales
Donations
Collections
Payment Plans
Subscriptions
Memberships

A SIMPLE and EASY integrated Web Order Form Generator which empowers nearly every single merchant to accept payments via a simple web page – securely. Whether product or service sales, accepting donations, collecting Accounts Receivable payments, or combined with our Advanced Web-based Recurring to facilitate payment plans, this product provides a foot in the door before you sign the merchant and the perfect retention tool once they are signed. Many refer to this as a One Page Shopping Cart – but best of all – it's FREE with our Internet Basic account.

ePNRecur

A complete suite of Recurring products giving merchants the option to sell merchandise in installments, or to offer products/services on a subscription or a membership basis. From Batch Upload used by those wanting to charge variable amounts to the same customers each cycle, to the Basic Recur which allows for payment plans for memberships, associations, etc, and Card-On-File transactions made easy to manage through Activity Reports, all are built into the Internet Basic account at NO ADDITIONAL CHARGE.

ePNCart

ePNCart offers online merchants an easy to implement, customizable shopping cart for Internet storefronts. It is a simple, yet powerful, integrated shopping cart designed to help merchants increase sales to valuable, hard earned online shoppers. With ePNCart, no software installation is needed. The Product Page Generator creates HTML pages for a merchant's Web site using easy to follow, step by step instructions for quick set up, conveniently generating a Web page with full eCommerce capabilities! If the merchant already has their web site, the Button Generator will create the HTML code for just the "Add to Cart", "View Cart" and "Checkout" buttons, no need to disrupt the flow of their existing site. Gift/loyalty support is also available for payment at check out.

ePNMobile

Wireless & Mobile — Either through a dedicated device (Way Systems or Commerciant) or utilizing your merchant's own cellphone. Fully functional, with card swipe and receipt printing on a Bluetooth-compatible device, gift/loyalty support, plus full reporting through ePN's PCI-compliant Gateway. ePNMobile, the merchant-owned cellphone solution, can prompt for invoice number and gratuity, process the transaction in real time, and show the auth number right on the phone display. Best of all, it is PABP certified and eliminates those pesky Fixed Flat Monthly Fees - great for fleets and seasonal merchants.

The everywhereProcessingNetwork 

ePN Solutions

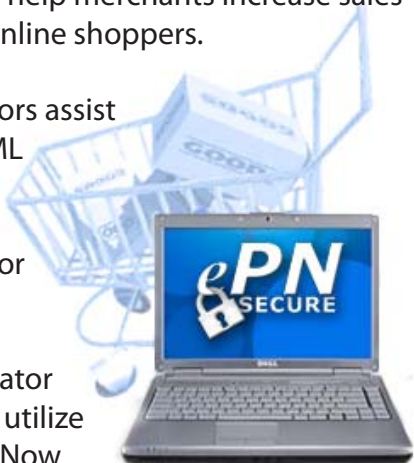

One-Stop-Shop For Merchants Of All Types

Internet Merchants

eProcessingNetwork offers online merchants an easy-to-implement, customizable shopping cart for Internet storefronts. ePNCart is a simple, yet powerful, integrated shopping cart designed to help merchants increase sales to valuable, hard-earned online shoppers.

Our Product Page Generators assist merchants in creating HTML pages for their Web site using easy to follow, step-by-step instructions for quick set-up.

The ePNCart Button Generator allows merchants to easily utilize eProcessingNetwork's Pay Now buttons for existing Web pages.

Retail Merchants

ePNJPOS for laptops and computers lets merchants securely process payment transactions, including Card Swipe, PIN Debit, Manually Keyed, Signature Capture, AND Gift/Loyalty. An effective solution offers reporting by machine, location, and Clerk ID, and receipt printing on any Windows-driven printer. Merchants can block browser access to prevent Internet surfing by employees.

Encrypted Store & Forward is for merchants without a wireless terminal taking orders in the field. Just swipe then Authorize through Online Terminal and qualify for card present rates.

Wireless Merchants

ePNMobile supports more cell phones, more PDAs, more carriers and more MagStripe Reader/Printer hardware than all our competitors combined. We also offer the ability to use dedicated wireless terminals like Way Systems MTT and Commerciant Mobilescape devices to allow merchants the freedom to "cut the wires" and process transactions freely.

These devices are committed to a specific network and carrier (CDMA, GPRS, etc.) and offer good coverage. They differ in size and functionality, but all offer the ability to accept swiped transactions with a magstripe reader and to print a receipt. Any of these devices can be added to an eProcessingNetwork account which provides full reporting on all activity.

Merchant Solutions

We offer complete payment solutions for your merchants.

ePNRecur - Create recurring payments for memberships or associations.

ePNPlugin - Swipe or Manually Key payments directly within QuickBooks™. Download transactions from all ePN Products including Internet transactions. Use "Card On File" to conveniently charge the card previously used by a customer.

Gift/Loyalty - Offer your merchants the chance to increase sales and reward their best customers from their web site, in the field, or in their store.
